

StarShield Technologies Pvt. Ltd
Protection from Heat, Water & Dust

Star Stone Shield

Nano-Technology composite Polymeric Based Dust & Water Repellent Coating

Technical Data Sheet

Product type	: <i>Nano-Technology composite Polymeric Based Dust & Water Repellent Coating</i>
Color	: Transparent liquid
Active ingredient	: Solvent based coating
Mix ratio (Base : Hardner)	: 5:1
Coating thickness	: Approx 10-12 microns
Odor	: Mild
Boiling Point	: 100°C.
Touch dry time	: 2 Hours
Vapour Pressure	: 18 mmHg @ 20°C
Vapour Density	: Not determined
Coverage	: 300 - 350 sq.ft. / ltr (subjected to application method and substrate)
Specific Gravity	: Lighter than water
Best Before	: 10 months from the date of manufacturing
Storage	: Keep it in cool and dry place
Size available	: It is available in 1, 4, 10 & 20 ltrs packing

Corp Off: R-1/88, 2nd Floor, Above ICICI Bank, R.D.C., Raj Nagar, Ghaziabad, U.P. - 201001

Branch Off: 2989/1 CA, Street No. 16, Old Ranjeet Nagar, Patel Nagar, New Delhi -110008.
